A YEAR IN REVIEW

GPYEF

GREATER PORTAGE YOUTH EDUCATION FOUNDATION, INC.

PRESIDENT'S MESSAGE

This past year was a transition year for the GPYEF board as long-time president Mike Nelson and vice president Tom Pinion stepped down from their positions after nearly 10 years. Mike and Tom were both instrumental in getting GPYEF to the successful level that it is today. Thankfully, both Mike and Tom have decided to remain on the board so that we can continue to draw on their knowledge and expertise.

We were able to hold several successful events this past year and wanted to share some photos and articles of a few of those groups we had the pleasure of supporting.

Portage is a generous community and the GPYEF board is aware that you are asked by multiple charities for financial support. GPYEF is honored to be included in your charitable giving and you can be assured that we take stewardship of your gifts seriously. We understand that when you make

a gift to GPYEF, you are investing in teachers, students and the youth of Portage.

Over the past three years, GPYEF has been able to issue grants totaling more than \$28,000 to various youth projects and events. We have also awarded \$12,000 in scholarships over the last 3 years to graduating seniors who are going on to higher education.

With your help, the GPYEF board is hoping to improve significantly on these numbers over the next three years, and beyond.

Thank you for your ongoing support!

Tim Bressers, GPYEF President

SPANISH TRIP 2017

The first bi-annual trip for the Spanish club was completed this last Spring of 2017!

TEACHER FEATURE

Beth Loomis and Emily Grasweski, teachers of the Spanish language department at Portage High School in 2017, made the dreams of the Spanish club a reality in the Spring of 2017.

We had a chance to sit down with them and talk about the Spanish Exchange Program that they helped initiate. The German program has had an exchange program for decades, but the Spanish students did not, until this past year.

Mrs. Grasweski, who taught in Portage for 5 years, stated that early on they were able to arrange a week-long trip to Costa Rica, but it wasn't a true exchange program like the students really wanted. She and Beth Loomis, who has 20 years of teaching experience with the last two of those teaching in Portage, researched options on their own time. They were able to find a company that was a "perfect fit" in that it focused only on exchanges with Spain. They then took their proposal to the board and both admit it was "not a tough sell".

A program was created where Spanish students would come to Portage for 3 weeks in the fall and the Portage students would travel to Spain for 2 weeks in March to include spring break. The cost for each student was \$1600. The group was able to offset the cost to students through various fundraisers.

GPYEF was very pleased to supply some funds to help with the cost of the trip.

Both teachers say the entire community was very supportive and they want to give a "big thank you" to all of those who helped. A total of 26 students were able to travel to Spain this past March.

The students lived with the families of the same students who had been here the previous fall. They really enjoyed seeing the every day aspect of life in Spain. They did attend a local high school part of the time. The town was of a size that they felt safe and over time gained confidence to explore and practice their language skills with the locals.

Both teachers love to travel and practice their language skills. Now, through hard work and dedication, they have established a program to provide the same opportunities for their students.

Thank you so much for all your efforts!!
